

Safety Data Sheet

according to Regulation (EC) No 1907/2006

1. Identification of the chemical substance and of the company/undertaking

Product name: IM300**primotec Joachim Mosch e.K.**

Tannenwaldallee 4, 61348 Bad Homburg

Fon: +49 6172 997700

Fax: +49 6172 9977099

Emergency telephone number: Same as above

Date Created: September 24, 2019

2. Hazards identification

GHS Classification: GHS classification cannot be determined due to no data for the product.
As of now, all items for Physical Hazard, Health Hazard, and Environmental Hazard are either "Not classified", "Classification not possible" or "Out of category".

Label Elements: Not applicable
(Pictograms or Symbols)

Signal word: Not applicable

Hazard information:

- **Most important hazard:** Not applicable (Old Classification criteria: Not applicable)
- **Hazard information:** Irritation to the mucous membranes such as skin, eye, nose is low, but may be irritating in rare cases.
May cause respiratory irritation.
Long or repeated exposure may cause blood vessel, liver, pancreatic failure.

Precautionary statements

【Prevention】

- Obtain instruction manual before use.
- Do not use the product until you read and understand all the precautions.
- Wear protective gloves/protective clothing/eye protection/face protection.
- Use personal protection and ventilation system as needed, and avoid exposure.
- Do not drink/eat/smoke before using the product.
- Wash hands thoroughly after handling the product.
- Avoid draining to the environment.

【Response】

- After swallowing, immediately rinse mouth thoroughly. Do not induce vomiting.
- After contact with skin or hair, immediately remove all contaminated clothing. Rinse skin with water or shower with soap.
- Wash contaminated clothing before wearing again.
- After inhalation, move to fresh air and rest in relaxed and easy-to-breathe position.
- After eye contact, rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- If you feel unwell, seek medical attention.

【Storage】

- Avoid direct sunlight, close the container tightly, and store it in well-ventilated cool place with lock.

【Disposal】

- For disposal of contents and container, ask regional waste disposal companies that are approved by the prefectural governor.

3. Composition/information on ingredients

Substance/Mixture type: Mixtures
Chemical name: Compound
Component and content: isopropyl alcohol 5 - 10% CAS No. 67-63-0
Other substances: Fatty acid diethanolamide, additives, water

4. First aid measures

After inhalation: Move to fresh air and rest in relaxed and easy-to-breathe position.
If you feel unwell, seek medical attention.

After skin contact: Immediately wash and clean skin.
Wash with plenty of water and soap. Rinse skin with water or shower.

After eye contact: Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, seek medical attention.

After swallowing: Immediately rinse mouth thoroughly.

Seek medical attention.
If you feel unwell, seek medical attention.

5. Firefighting measures

Extinguishing Media: Reinforced liquid (mist), foam, powder, or carbon dioxide.
For initial fire, use powder or carbon dioxide.

Extinguishing Media which shall not be used: Straight streams of Water

Special hazard: Irritant, corrosive, or toxic gases may arise by fire.

Special firefighting procedures: Cut off the combustion source, and use the fire extinguishing media to extinguish.
After extinguishing fire, cool off the container with plenty of water.

Special protective equipment for firefighters: Firefighters must wear appropriate respiratory protection and chemical protective clothing.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures:
Workers must wear protective clothing.

Environmental precautions: Prevent entry into waterway to avoid environmental damage.
Do not discharge into the environment.

Methods and equipment for Containment and Clean-up:
If not dangerous, stop the leakage.

Secondary disaster prevention measures:
Prevent discharging into drainage, sewer, basement, or blocked area.
If spilled on the floor, it will become slippery, so wipe off frequently.

7. Handling and storage

Handling

Technical measures: Follow facility measures described in "8. Exposure controls/personal protection" wear appropriate protection.

Local/General ventilation system: Per "8. Exposure controls/personal protection," use local/general ventilation.

Precautions for safe handling: Do not use objects with high temperature, sparks, flames nearby.
Take precautionary measures against static discharge, and use conductive working clothing and boots.

Avoid contact: See "10. Stability and reactivity"

Storage

Technical measures: Establish facilities for lighting and ventilation.

Incompatible materials: See "10. Stability and reactivity"

Storage conditions: Store in well-ventilated location.
Avoid direct sunlight, close the container tightly, and store.

Materials for packaging:
Use containers which are prescribed in Fire Service Act and UN transport regulations.

8. Exposure controls/personal protection

Administrative level: Not specified

Personal protective equipment

Respiratory protection: Wear gas mask if necessary (in normal condition, this is not necessary).

Hand protection: Wear protective gloves.

Eye protection: Wear eye/face protection (such as eye protector).

Skin/Body protection: Wear protective suit with long sleeves.

Hygiene measures: Wash hands thoroughly after handling the product.

9. Physical and chemical properties

Physical state, appearance, color, etc.: Liquid

Odor: Slight characteristic

pH: No data

Melting/Freezing point: No data

Boiling point, initial boiling point, and boiling range: No data

Flash point: None

Vapor pressure: No data

Flammability range: Not known

Specific gravity: approximately 1.0 (15/4 °C)
 Solubility: Insoluble in water
 Partition coefficient (n-Octanol/water): No data
 Autoignition temperature: No data

10. Stability and reactivity

Stability: Stable under normal conditions.
 Hazardous reactivity: Avoid contact with strong oxidizing compound.
 Conditions to avoid: Avoid contact with halogen, strong acid, alkaline, oxidizing substance.
 Incompatible materials: Strong oxidizing compound, strong alkali
 Hazardous Decomposition Products: Combustion during fire will produce carbon monoxide, carbon dioxide.

11. Toxicological information

Acute toxicity: No data
 Skin corrosion/irritation: Cannot be classified.
 Serious eye damage/irritation: After contact with eyes, it may cause eye irritations.
 Respiratory or skin sensitization: No data.
 Germ cell mutagenicity: No data.
 Carcinogenicity: No data.
 Reproductive toxicity : None known
 Specific Target Organ/systemic toxicity (single exposure) : None known
 Specific Target Organ/systemic toxicity (repeated exposure): When exposed to a large amount of mists, vapors, or spray repeatedly, it may cause respiratory inflammation.

12. Ecological information

Aquatic environmental toxicity (acute): None known.
 Aquatic environmental toxicity (chronic): None known.

13. Disposal considerations

Waste and residues: Waste disposal according to official state regulations and local requirements. Should be disposed by the industrial waste disposal companies approved by the prefectural governor etc., or local government (if they are in charge).
 Contaminated container and packages: Containers need to be cleaned and recycled, or disposed according to official state regulations and local requirements. Empty containers need to be disposed only after the contents are completely removed.

14. Transport information

National regulations (Regulatory information)
 Ship Safety Act: Not applicable
 Civil Aeronautics Act: Not applicable
 UN number: Not applicable
 UN classification: Not applicable
 Shipping name: Not applicable
 Marine pollutant: Not applicable
 Special precautions: For transportation, avoid direct sunlight, and load the product appropriately so that it will not damage containers and prevent corrosion, leakage, and collapsing.
 Do not load heavy items on top of each other.

15. Regulatory information

Industrial Safety and Health Act: Not applicable
 Poisonous and Deleterious Substances Control Act: Not applicable
 Fire Services Act: Not applicable
 Law concerning Pollutant Release and Transfer Register (PRTR Law): Not applicable
 Ship Safety Act: Not applicable
 Civil Aeronautics Act: Not applicable

16. Other information

Information provided in this Safety Data Sheet is based on our current knowledge. It should not be construed

as guaranteeing any specific property of the product. Please be very careful when handling the product.
